OBJECTIVE

Dedicated and results-driven Software Engineer with expertise in Magento backend development, agile methodologies, and technical mentorship. Passionate about delivering high-quality solutions and fostering collaborative team environments.

EXPERIENCE

September 2022 - Present

- **Software Engineer**
  Terrific Minds
  - Spearheaded Magento backend development projects, leading custom module development and integration of third-party extensions.
  - Collaborated with cross-functional teams to implement agile methodologies, ensuring efficient project management and timely delivery of quality solutions.
  - Provided technical mentorship to junior developers, fostering a culture of continuous learning and skill development.
  - Implemented and maintained Git workflows for version control, ensuring code quality and collaboration across teams.
  - Utilized jQuery, JavaScript, HTML, and CSS to enhance frontend functionalities and user experience, ensuring a seamless user interface.
  - Demonstrated expertise in overriding existing Magento functionalities to meet specific project requirements, ensuring project success and client satisfaction.

August 2021 - August 2022

- **Advisory Intern-Analyst**
  Deloitte USI
  Deloitte Risk & Financial Advisory
  - Assisted senior analysts in conducting risk assessments and financial analysis for clients across various industries, providing valuable insights to mitigate financial vulnerabilities.
  - Compiled and analyzed data to identify potential risks and presented actionable insights to clients, contributing to informed decision-making processes.
  - Prepared detailed reports and presentations for clients, effectively communicating complex financial information in a clear and concise manner.

EDUCATION
